

READY TO RESPOND FOR YOUR CLIENTS

ServiceMaster Restore® understands the emotions and chaos that a fire disaster can cause for your policyholders. They need a compassionate, understanding expert to guide the way. As their agent, you are one of their first calls. Let us be an extension of the trusted service you provide.

As your partner, ServiceMaster Restore brings knowledge and experience in fire restoration as the single-source solution to guide your client from the initial contact through the final restoration.

The ServiceMaster Restore fire and smoke restoration process includes:

- Emergency pre-cleaning
- Content cleaning
- Content packout
- Wall and ceiling cleaning
- Deodorization

Our expert technicians can remove soot from at-risk items such as:

- Brass
- Aluminum
- Chrome
- Marble
- Tile and porcelain
- Upholstery and carpets

ServiceMaster Restore thoroughly explains the cleanup and restoration process to your client and leaves behind a comprehensive recovery guide that outlines the process. We understand that communication is critical for a successful mitigation and restoration project.

When you call ServiceMaster Restore, we contact your client within minutes and can be on-site within two to four hours of the first call. We use our extensive resources, knowledge and network to return your client's home to pre-loss condition as quickly as possible.

HOUSE FIRES: DID YOU KNOW?

In a recent survey our franchisees say, when it comes to house fires,

MOST HOMEOWNERS DO NOT:

Have an
EVACUATION PLAN

Own a
FIRE EXTINGUISHER

Have enough
SMOKE DETECTORS

Monitor their
BATTERIES

THEY ALSO SAY THAT ...

House fires are most common in
DECEMBER

The top cause of a house fire is
COOKING

yet

MANY ARE NOT PREPARED FOR A COOKING MISHAP
