

Vandalism Restoration Services

The clean you expect. The service you deserve. ®

ABOUT:

When someone invades or intentionally damages your structure, it's an emotional blow as well as a financial one. At ServiceMaster PCS, we understand that. Caring and consideration goes hand in hand with quick, efficient vandalism cleanup.

We're here to help restore your home and restore your peace of mind. Our courteous, efficient professionals remove graffiti and other substances from walls, floors and furniture. If you choose, you can take some steps to help minimize damage after the authorities have left.

Tips to Reduce Vandalism Damage:

- Wash egg or other residue off the building or surfaces with water.
- Remove debris or food from interior walls, carpeting and furniture. When dealing with fabrics, scrape or blot stains. Do not rub.
- Vacuum broken glass from floors and furniture with a shop vacuum. Always wear closed-toed shoes when broken glass is involved.
- Make a list of damages.
- DO NOT attempt to remove chemical stains, such as paint or ink.
- DO NOT use damaged electrical appliances.
- DO NOT discard damaged wood chips or other small articles. They may be useful for repairs.
- DO NOT use household cleaning products on fabrics, upholstery or carpet without consulting a professional cleaning service.
